

Insurance Coverage & Bad Faith Litigation

Our Clients

In addition to representing commercial insureds, Anderson & Kreiger's lawyers represent insurance companies, claims administrators, captive insurers and risk retention groups, primarily in the area of healthcare professional liability and in high exposure, bad faith cases. In addition to litigating insurance disputes, our team provides coverage opinions on a variety of policies and issues. With a reputation for handling high-stakes insurance coverage and bad faith matters, our experience spans a wide- range of industries and exposures, including construction, environmental, higher education, real estate, and transportation, in addition to our work for towns and municipalities.

Our Strategy

A&K insurance attorneys have deep experience managing a wide range of insurance coverage and bad faith matters, helping clients to reach a favorable resolution as quickly as possible. Clients rely on our nuanced advice when a claim is made or a dispute arises, often preventing litigation. We work quickly to analyze coverage and understand where perceived gaps may lie, develop a strategy and move the matter toward resolution.

Our Results

We are proud of our proven track record working with policy-holders, obtaining substantial recoveries for claims that were initially denied. A&K attorneys are among the first lawyers to successfully argue multi-year, multi-layer coverage for asbestos and environmental claims. A&K lawyers continue to obtain recoveries that may not have seemed possible. In recent times, without litigation, we have recovered over \$1,000,000 in multiple client matters, following denials of coverage.
