

Regulatory Litigation & Advising

Anderson & Kreiger's insurance lawyers advise clients on insurance regulatory matters, including structuring, compliance approvals, and any regulatory related litigation. We work with our clients to craft applications and filings related to their critical business transactions. Our clients also rely on our help to craft thorough responses to regulator inquiries and then defend them should regulatory enforcement actions be brought.

Our work for both private companies and public entities allows our attorneys to provide insightful and proactive advice. With broad experience across a wide range of matters, we recently helped a hedge fund structure multiple regulatory aspects in their acquisition of a multimillion-dollar portfolio of life insurance policies held in receivership. Our experience also includes serving as outside general counsel to the Workers Compensation Rating and Inspection Bureau of Massachusetts in connection with rate-setting proceedings and governance matters.
