

## Anderson & Kreiger Announces Application Opening Period for 2026 Summer Associate Position

Anderson & Kreiger LLP is seeking summer associates for 2026 to assist with and gain experience in all of its practice areas – litigation, public sector and municipal law, environmental and land use, renewable energy, commercial real estate, airports, construction, white-collar criminal defense, internal investigations, and insurance.

We aim for our summer associates to have a “hands on” experience of what it’s like to be a junior associate at the Firm. Summer associates attend client meetings, draft briefs, draft and negotiate transactional documents and agreements, help us prepare for oral arguments, depositions, and client interviews, and problem solve and strategize with us. We are active members of the Boston legal community and provide summer associates with opportunities to connect within the Firm and at bar association events, fundraisers, and networking events. We hope you’ll join us.

We are accepting applications from 2Ls. Applicants should have strong academic credentials, from both undergraduate and law school and a demonstrated ability to evaluate complex issues, work collaboratively, and write effectively. All interested candidates should email their resume, transcript, and cover letter to [acroft@andersonkreiger.com](mailto:acroft@andersonkreiger.com). Applications are reviewed on a rolling basis but should be submitted no later than August 15, 2025.
